

CalSol

About CalSol

LIMS (Laboratory Information Management System-Software) for an accredited calibration laboratory has always been a challenge. We at SanSol accepted the challenge and after dedicating over three years, CalSol has been introduced to provide complete paperless solution for accredited calibration laboratories in accordance with ISO 17025:2017. CalSol has been designed for generating Calibration Certificates with **QR Codes (as per the latest notification by NABL)** with built-in uncertainties calculations for all disciplines and also implementing the required Management System in accordance with ISO 17025: 2017.

CalSol is available at a very affordable price of as low as Rs 9000/- P.M.
